

13 Years of Trusted Care in Gangseo-gu

Yonsei Heal Dental Clinic

A Trusted Leader in Implant Dentistry

Since 2014

For 13 years, Yonsei Heal Dental Clinic has remained in the same location, earning the trust of patients through consistent, high-quality dental care. Renowned for excellence in implant and full-mouth implant treatment, the clinic has gained international recognition, including performing Osstem Live Surgery—an honor reserved for highly respected dentists in Korea.

In addition, Yonsei Heal Dental Clinic is leading global implant education by training dentists from countries including the **United States, Japan, New Zealand, Brazil, Saudi Arabia, China, Indonesia, and Myanmar.**

Experience the world-class care of Yonsei Heal Dental Clinic, where advanced dentistry connects beyond Korea to patients and professionals around the globe.

Why Yonsei Heal Dental Clinic?

When choosing a dental clinic overseas, there are important questions you should always check.

- * Does the clinic have world-class medical expertise and advanced technology?
- * Is it internationally trusted and recognized?
- * Is the treatment environment comfortable and well-equipped?
- * Is the location easily accessible and the treatment cost reasonable?

In the following pages, you will find that the answer to all of these questions is a clear "YES" when it comes to Yonsei Heal Dental Clinic.

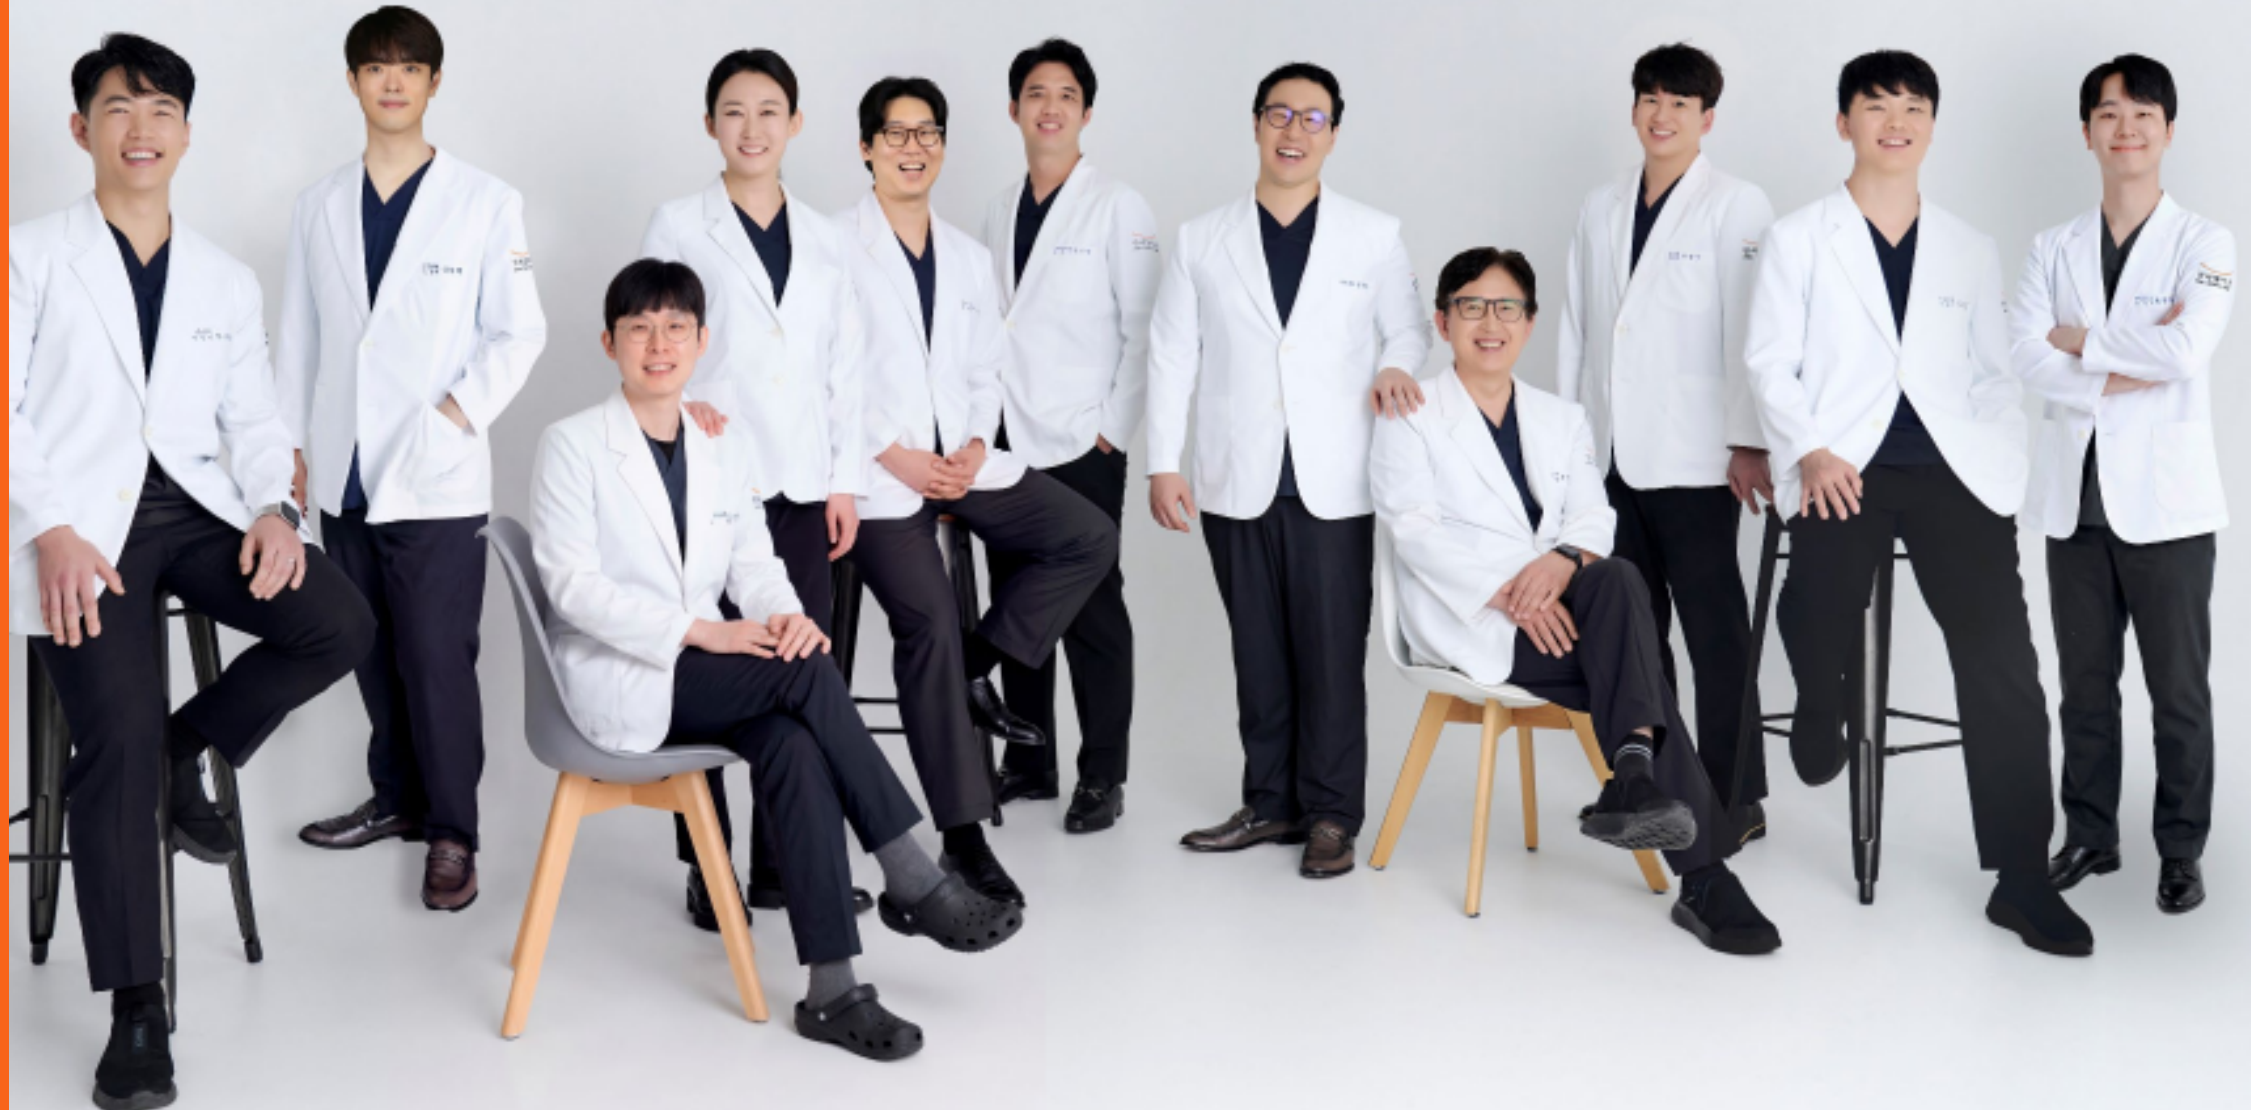

An integrated care system led by **11 Ministry-certified dental specialists**

Our clinic is built on university hospital-level expertise, establishing a higher-standard collaborative care system.

From the initial diagnosis by the chief doctor to prosthodontists and other specialists, we work as an integrated team to ensure more precise and efficient treatment.

Osstem Meeting Live Surgery

Chief Director Hyunjun Jung is actively engaged as a lecturer in implant clinical education both in Korea and internationally. Dentistry is still a field where clinical outcomes can vary depending on the clinician's skill and experience. At Yonsei Heal Dental Clinic, we are committed to providing the highest level of care through a team of highly skilled professionals.

3-Day Laminate Veneers for International Patients

A fast-track system for international patients visiting Korea allows all treatment to be completed within 3 days, enabling care without the need for a second visit or re-entry.

Consultations for cavities and implant treatment are also available via Naver QR code or WhatsApp.

Before

After

Before

After

We provide more precise diagnosis and treatment.

Using advanced diagnostic equipment, we perform precise analysis of the entire oral condition as well as its microstructures.

Panoramic X-ray

A comprehensive view of the overall oral condition at a glance

3D CT Scan

Precise analysis of alveolar bone volume and thickness, as well as the exact location of the nerve canal.

Specialized Imaging Equipment

Accurate diagnosis through precise 3D scanning.

Yonsei Heal Dental Clinic turns dental anxiety into comfort.

Yonsei Heal Dental Clinic minimizes treatment pain through gargle anesthesia, topical anesthetic gel, and ampule warming systems.

1

We minimize sensitivity during scaling with dedicated gargle anesthesia.

2

Topical anesthetic gel is applied before injection to reduce pain during local anesthesia.

3

We minimize pain by using an ampule warming system that maintains anesthetic solution at a temperature close to body temperature.

Sedation Treatment for Dental Phobic Patients

Conscious Sedation Therapy

We help reduce pain and fear, allowing patients to receive treatment in a relaxed and comfortable state.

Conscious awareness is maintained while anxiety is reduced, enabling safer and more stable treatment.

21/100 (DAS)

This is a quantified index measuring dental anxiety using the DAS (Dental Anxiety Scale). Reference: Corah's Dental Anxiety Scale (Developed by J.H. Clarke and S. Sustrvold, Oregon Health Sciences University School of Dentistry, 1993, revised 1998)

1

A Spacious and Comfortable Environment, with Meticulous and Detailed Treatment. Experience our VIP rooms, where private comfort meets premium care

1F - VIP Room

2 13 years of trust and a multidisciplinary specialist system set a new standard in high quality prosthetic dentistry.

Upon arrival at the clinic, your pre-scheduled treatment begins without waiting.

Special Partner Hotel Rates – Golden Seoul Hotel

***OPTION**

Golden Seoul Hotel features three restaurants and offers views of either the city skyline or the Han River. Major destinations such as Seoul City Hall and the Myeong-dong district are approximately 25 minutes away by car. Guests can also enjoy convenient amenities, including a business center and dry-cleaning/laundry services.

We will be your **trusted partner** in restoring your healthy smile

For those who have lost their teeth, dental implants are more than just a replacement—they provide a better quality of life.

Like building a traditional Korean house designed to stand strong for over a century on solid pillars, implants help maintain healthy oral function for many years to come.

At Yonsei Heal Dental Clinic, we are committed to delivering the highest standard of treatment and comprehensive aftercare with responsibility, precision, and genuine care for every patient.
